To Follow Air Lanes to South America

E. C. Johnson, the flying Seeburg sales manager who travels exclusively by airplane and who recently flew from coast to coast and from Canada to the Gulf, plans to go to South America in November via Pan-American Airways. His business trip will be entirely by airplane and will require six weeks to complete. From Miami he will go to Mexico City and then to Valparaiso. From this point he will fly across the Andes Mountains to Buenos Aires and back up the other coast of South America to Panama and back to Miami.

Mr. Johnson will be accompanied, according to present plans, by Eric Wedemeyer. Mr. Wedemeyer plans to leave him at Rio de Janeiro and take the Zeppelin to China.

July was the biggest month in the history of the J. P. Seeburg Corporation, according to E. C. Johnson, sales manager. Mr. Johnson stated that on August 1 they were 500 units behind in deliveries of the "Sympho-nola."

Seeburg's "Hockey" has enjoyed a remarkable sale in foreign countries and Mr. Johnson believes that operators in this country are beginning to recognize the possibilities of this all-

skill, all-amusement machine. He reports that orders are pouring in from cities where pay-out tables and prize tables are having difficulty. Sales to foreign countries have exceeded 3,500.

GET READY!

The Fall season is almost here. Are your machines up-to-date and in A-1 shape? We guarantee our rebuilt pin games to be mechanically perfect and good money-makers.
